

## One machine that cuts dices and chops – HUSKY dual purpose cutting machine

### Technical data:

Housing dimensions (mm/inch)	
Length	2,265; 89 1/5"
Width	914; 36"
Height	1,200; 47 1/5"
Weight (kg/lb)	approx. 389; 858
Electronic control	✓
Up to 50 stored cutting programs with user rights allocated over four levels	✓
Cutting statistics (operating data recording)	✓
Undercarriage	✓

### HUSKY as a dicer

Max. cut-off length (mm/inch)	1 - 50; 4/100" - 2"
Max. cut-off blade speed/minute	300
Gridsets (mm/inch)	4/5/6/8/10/12/14/ 16/20/24/32/48/96 1/5"; 3/10"; 2/5"; 1/2"; 3/5"; 4/5"; 1"; 1 3/10"; 2"; 3 4/5"
Product specific accessories	on request
Max. infeed length (mm/inch)	550; 21 7/10"

### HUSKY as a portioning machine

Max. cut-off length (mm/inch)	1 - 50; 4/100" - 2"
Max. cuts/minute	175
Cross section of product (mm/inch)	180 x 180; 7" x 7"
Max. infeed length (mm/inch)	600; 23 2/5"

### The benefits for you at a glance:

- First-class cutting quality
- High throughput rate for dicing and powerful portion cutting with one machine
- Enormous flexibility: conversion in less than 2 minutes
- Saves on costs, space and time due to the dual purpose use of the one machine
- Same functionality and equipment as all TREIF dicers and all TREIF portioning machines
